Five-layer review: identity, authority, specification, condition, fit

UNIT OFFERED AS	OFFERED BY (SELLER OR BROKER)	TARGET WELLS OR FIELD	REVIEWED BY / DATE

1. **Fill in the Required column first,** from your well program, before you read the listing.
2. **Copy what the seller states** into the Stated column, exactly as written.
3. **Tick Verified only against a source document,** such as a class record, certificate or manufacturer record. A broker sheet is not a source.
4. **Work in layer order.** A unit that fails on identity or authority does not need a condition survey.
5. **Every blank, range or mismatch is a gap.** The gaps become the scope for the physical inspection and class survey.

Red flags: ask for documents before spending on travel or inspection

- Specification sheets that differ from the owner's own documents
- Ratings stated as ranges rather than specific values
- Proof of funds demanded before basic identity is shared
- Inspection fees payable to intermediaries
- "Firm" prices with buyer-paid commissions added on top
- The same unit offered by several intermediaries at different prices

RECOMMENDATION	OPEN GAPS FOR INSPECTION SCOPE	REVIEWED BY / DATE
☐ Proceed to inspection ☐ Proceed with conditions ☐ Do not proceed
